UNIVERSAL APPLICATION | 3D LAYERING EFFECT |
INDIVIDUAL INCISAL EFFECTS | FLUORESCENT MASSES
| INCREASE OF CHROMA | COLOUR BRIGHTENING |
NATURAL GINGIVA EFFECTS | SIMPLE AND ECONOMI-
CAL HANDLING | RELIABLE, REPRODUCIBLE RESULTS

Vision-3D Artistic "Liquid Paint on Ceramic System"

Consists of a variety of coordinated components for the finalization of ceramic restorations. This finishing system is ideally matched to zirconium and lithium disilicate materials. Conventional metal-ceramics can also be finalized with this system.

With a small space requirement on monolithic crowns and bridges, natural effects such as: translucency, chroma, halo, mamelons, enamel cracks, opalescence and fluorescence can be achieved quickly and efficiently.

The components of the Vision-3D Artistic System consist of

- ✓ 4 Shades (A, B, C, D)
- ✓ 12 Stains
- ✓ 4 Sculpture Masses
- ✓ 1 Fluor Glaze

Vision 3D ARTISTIC Kit Art.no. 770

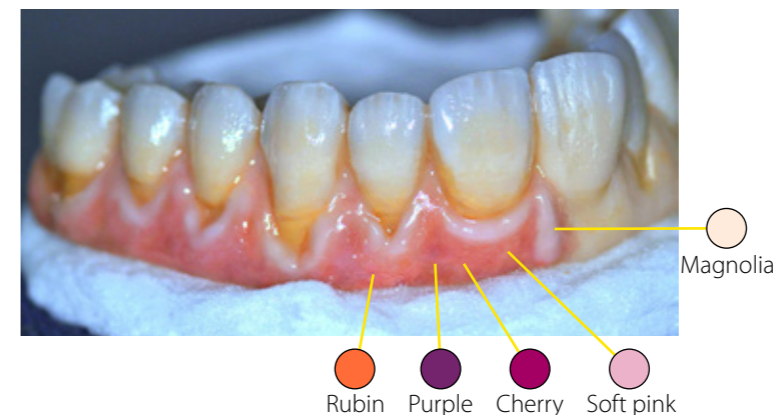

Vision-3D Artistic Gingiva

With the 8 Gingiva Colors and the 4 Gingiva Sculpture Masses the natural effects of the gingiva can be copied perfectly. Beautiful, naturalness and vitality can be achieved in simple steps.

- ✓ 8 different gingiva colors
- ✓ 4 Gingiva sculpture masses
- ✓ 1 Glaze for gingiva (non fluorescent)
